
Telugu movies are spoken in the Telugu language, which is a language in south India. They are dubbed into English with Indian subtitles. The exception to this rule would be children's programming, which will come with both the English dub and the original Telugu version. This means that you will have to use your native understanding of English or Spanish to watch these films if you do not understand them in their original form. The following lists indicate the various telugu and other non-English dubbed films based on the popular Indian film franchise, Chak De India or Chak De India: A Revolution In Six Acts.
